CM'S CUP 2024

CM'S Cup 2024
Login & Dashboard

Login

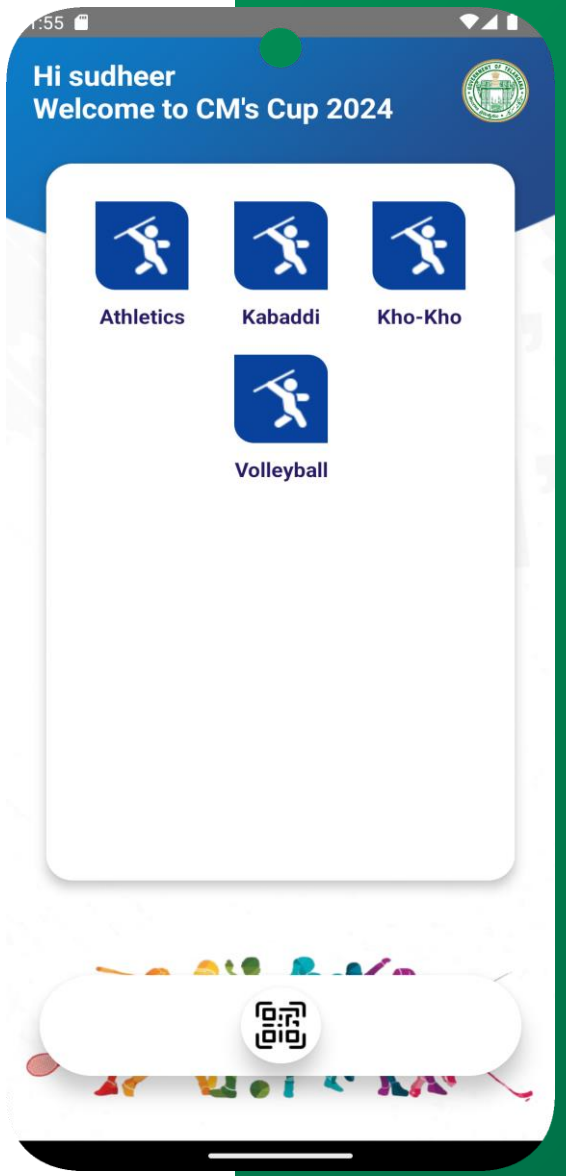

- Login with Mobile Number and Password allows users to securely access the system by entering their registered mobile number and password. The login process ensures that only authorized users can access sensitive information and functionalities.
- Once the correct credentials are provided, users are granted access to their dashboard or the next step in the workflow. This authentication process is simple, secure, and designed to ensure privacy and protect user data.

Dashboard

- On the dashboard, users can view various sections such as Player Register, Schedule 1, Total Registers, Grouping, Upload Results, Merit Certificate.
- Each section provides easy access to important features, allowing users to manage registrations, check event schedules, upload results, and download merit certificates.
- The dashboard is designed to offer a comprehensive overview and facilitate smooth navigation for both participants and officials.

Disciplines

- Users can choose from a variety of sports disciplines to proceed further. The available options include Athletics, Kabaddi, Kho Kho, and Volleyball.
- Each discipline offers specific features and options tailored to its unique requirements, such as player registration, team formation, event scheduling, and performance tracking.
- By selecting a discipline, users can access relevant functionalities and ensure seamless management and participation in the chosen sport.

Selecting User Details

Screen 1

- Users are required to select their gender from the available options to ensure proper identification and categorization for activities or events.
- This step is essential for maintaining accurate records and enabling gender-specific features such as participation in events, team assignments, or competitions.
- The system ensures inclusivity and fairness by considering gender-based requirements and providing equal opportunities across all disciplines.

Screen 2

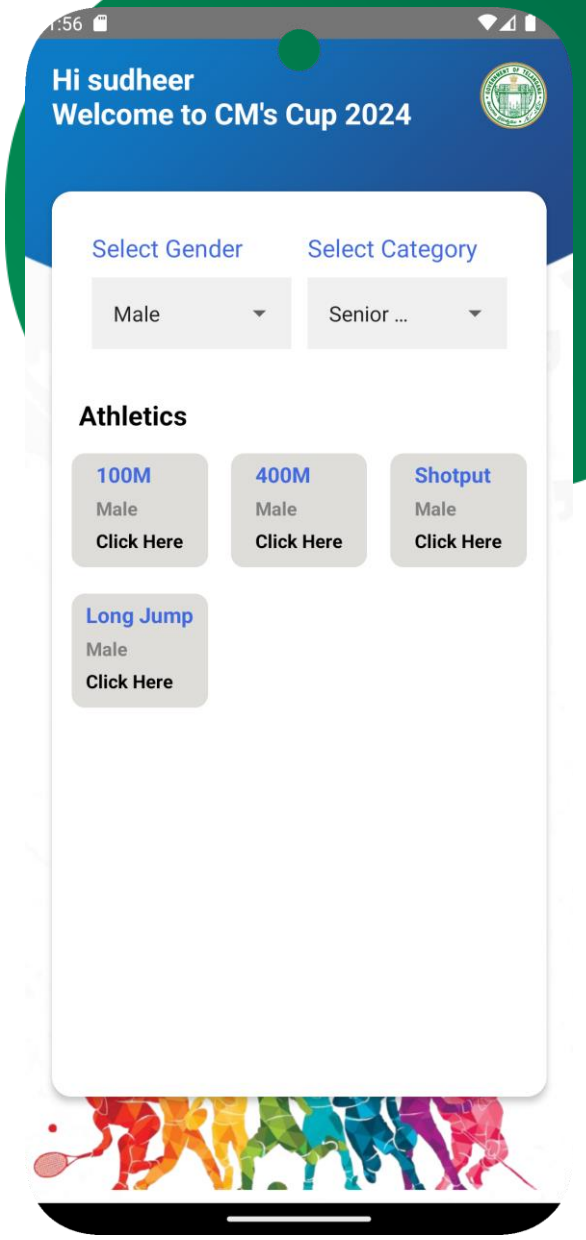

- Users must choose an appropriate category based on their age group and gender to proceed. The available categories include Sub-Junior Boys, Junior Boys, and Senior Men.
- Each category is designed to group participants according to their age brackets and skill levels, ensuring fair competition and tailored training opportunities.
- By selecting a category, participants can access relevant events, schedules, and resources that align with their developmental stage and competitive level, fostering growth and engagement within their chosen discipline.

Selecting Player Gender & Category

CM'S CUP 2024

Once the user selects their gender and category (e.g., Sub-Juni Boys, Junior Boys, Senior Men), the system will dynamically display discipline-specific data relevant to the chosen options. This ensures that users see only the most pertinent information, such as available events, schedules, training modules, and competition opportunities tailored to their selection.

This targeted approach streamlines navigation, enhances user experience, and ensures that all participants are provided with accurate and relevant resources for their discipline, gender, and category.

Auto Generate Teams

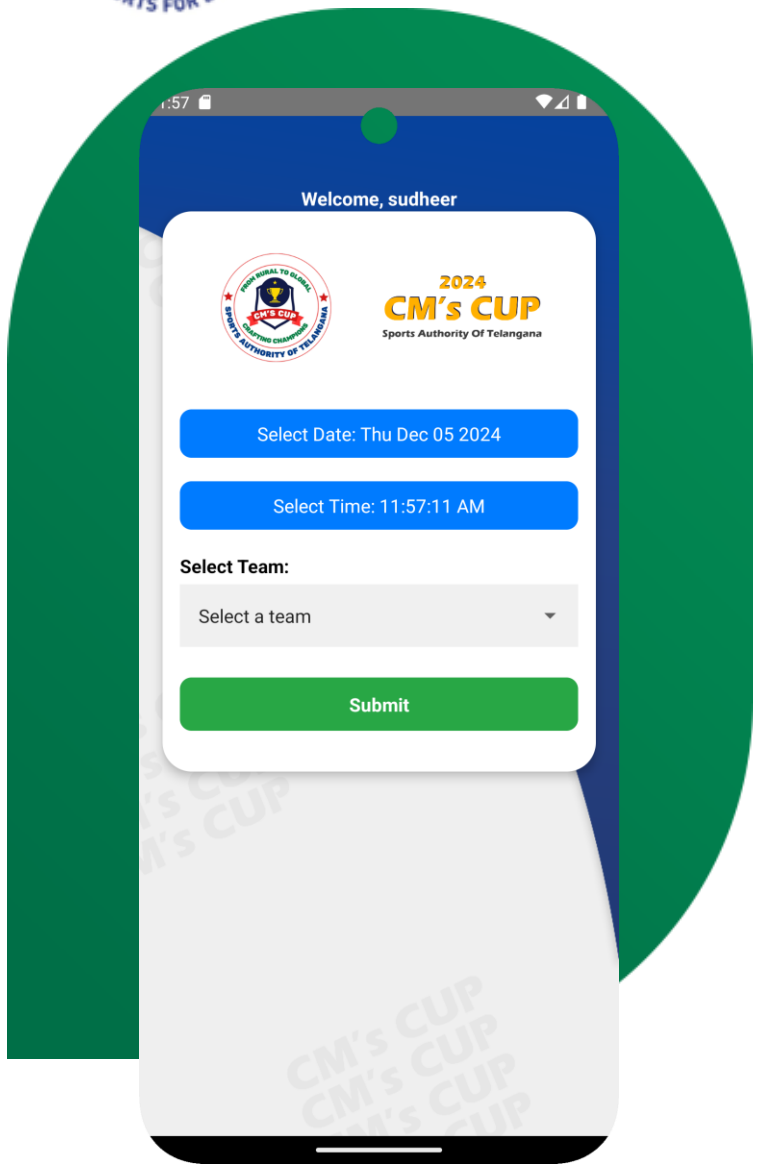

- In this process, users are responsible for selecting players to form teams tailored to specific disciplines, gender, and categories. The system simplifies this task by presenting a filtered list of eligible players based on prior selections, ensuring that only those meeting the required criteria are displayed.

- Each player's profile includes key details such as skill level, past performance, experience, and physical attributes, providing users with valuable insights to make informed decisions. Users can select players individually or in groups, depending on the requirements of the team formation.

Select Team

CM'S CUP 2024

- The **Date, Time, and Team Selection Page** simplifies scheduling by allowing users to select the event date through an interactive calendar, ensuring conflict-free planning.
- A time picker enables precise start time selection for better coordination and participation. The system displays available teams with details such as names, categories, and rosters for easy identification.
- After finalizing selections, the system validates inputs to prevent overlaps and confirms the schedule for efficient planning and communication.

Selection of Date & Time

Selection of Date

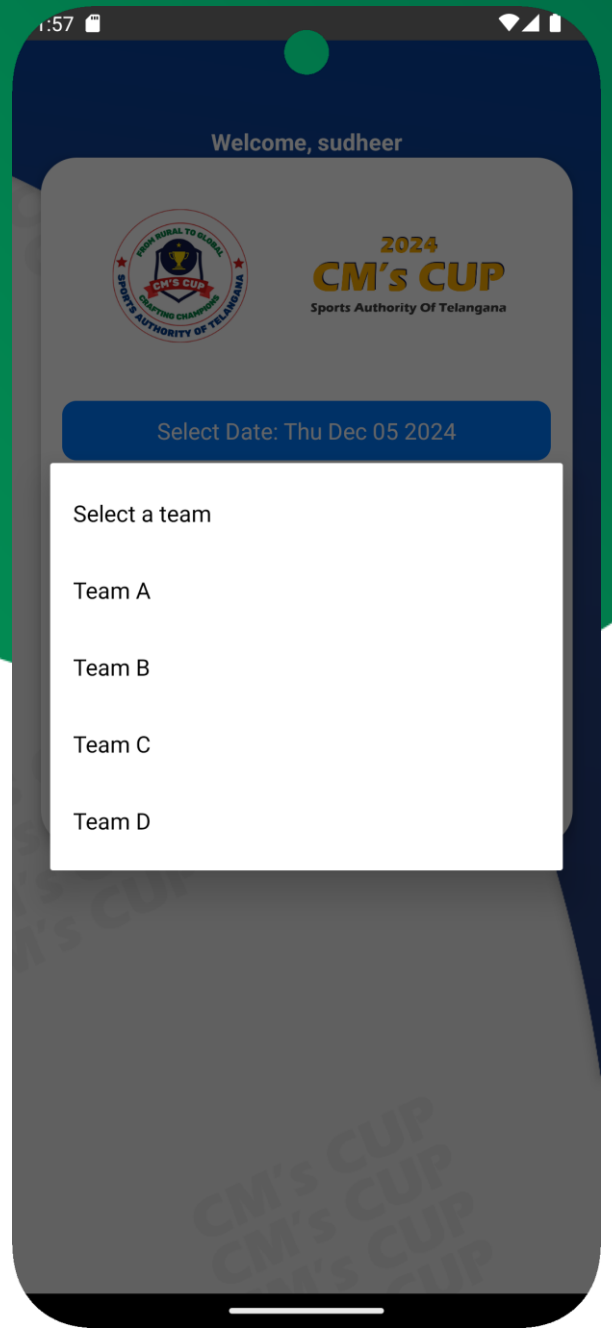

- Selecting Date allows users to pick a specific day for the event, ensuring clear and organized scheduling. The interactive calendar displays all available dates, making it easy to choose a conflict-free time.
- Visual markers highlight the selectable days, streamlining the process. By selecting the date, users can ensure proper planning and avoid overlapping events, optimizing the scheduling experience.

Selection of Time

- Selecting Time allows users to choose the exact start time for the event or session, ensuring precise scheduling. A time picker interface makes it easy to select from available time slots, preventing overlaps with other activities.
- The system displays available time options based on the selected date, simplifying the process. By selecting the correct time, users can ensure timely participation and smooth coordination of events.

Team Selection

- **Selecting Teams (A, B, C, D)** allows users to choose the teams participating in the event from a list of available options.
- Teams are displayed with key details, such as team names and categories, for easy identification.
- The system ensures that only relevant teams for the selected event are shown, making the selection process straightforward.
- By selecting teams A, B, C, or D, users can efficiently assign teams to their scheduled activities or matches.

Thank You !
